## Miscellaneous Information.

### COLLEGIATE DEPARTMENT.

#### TERMS OF ADMISSION.

Candidates for admission must produce testimonials of good moral character; and if from another College, evidence of regular dismission.

The proper time for examination is on Tuesday preceeding Commencement, and the day before the opening of the Fall Session.

Students are admitted only on examination, both of the preparatory studies and of those previously pursued by the class which they desire to enter. When admitted to an advanced class, a fee of \$5 is charged for each years' advancement, except when the student comes from another College.

Candidates for the Freshmen Class are examined on the following books:

ENGLISH,.....Grammar; Geography; Outlines of Ancient and Modern History; Ancient Geography.

MATHEMATICS,..Arithmetic; Algebra through simple Equations.

LATIN,.....Andrews and Stoddard's Grammar; Cornelius Nepos, or Latin Reader, Cæsar (two books,) Virgill's Æneid (four books), or their equivalents.

GREEK,.....Crosby's or Hadley's Grammar and Xenophon's Anabasis.

The Grammar School of the Institution presents peculiar advantages to those who wish to be thoroughly prepared for admission.

**DEPARTMENTS.**

The Board of Trustees, at the last session, determined to establish the following scheme of Departments of Study, and to carry it out on the University principle of elective courses, as the means at their command shall enable them to do so.

I. Moral Science.

II. Ancient Languages and Literature.

III. Pure Mathematics.

IV. Philosophy and English Literature, including History and Constitutional Law.

V. Physics and Mixed Mathematics, and the application of Calculus to Natural Philosophy, Astronomy and Mechanics.

VI. Chemistry, and its application to Agriculture and the Arts.

VII. Physical Geography, Natural History, Mineralogy and Geology.

VIII. Biblical Literature and Hermeneutics.

IX. Modern Languages.

X. Civil and Mining Engineering, and Metallurgy.

The scheme embraces much more than can be accomplished in four years; and it was further agreed that those students who wish to obtain the Collegiate Degrees, shall devote the earlier part of their course as heretofore mainly to the elements of classical learning and the pure Mathematics; but that, for the latter part, certain studies be made optional, and that those who go through any of the prescribed special course, as they may elect, shall be graduated Bachelor of Arts equally with those who complete the Classical Course.

We have been able, the present year, to make but a partial introduction of the elective courses, as will appear below.

The instructions in PHILOSOPHY and ENGLISH LITERATURE is given partly by recitations in History, Rhetoric, Logic, Political Economy, Metaphysics and Constitutional Law, and partly by Lectures on the English Languages and Literature, the Philosophy of History and Polity, and the History of Philosophy. Practical Exercises in Writing and Speaking also receive special attention in this department.

The Course in the NATURAL SCIENCE includes recitations from text books, and lectures accompanied by illustrations and experiments. The facilities of this department for full and efficient instruction are unusually ample. The apparatus is extensive and valuable, and annually increasing.

In the MATHEMATICAL department there are daily recitations. In the senior year, lectures are given on the theories and applications of the higher branches.

In the CLASSICAL department it frequently happens, that either different authors, or different portions of the same author are read by successive classes; but this fact does not affect the *amount* of Greek and Latin required of those who apply for admission to the higher classes.

#### BIBLICAL COURSE.

Young men preparing for the ministry who cannot take a full course, can take a select course adapted to their wants, which can be accomplished in two years after they are fully prepared to enter the Freshman Class. The essential parts of such a course are the following:

FIRST YEAR,.....The Latin, Greek and Mathematics of the Freshman Class; Mental Philosophy begun with the Sophomore Class; Hebrew begun.

SECOND YEAR,.....Mental Philosophy completed; Logic; Rhetoric; Paley's Evidences; Moral Philosophy; Butler's Analogy; New Testament Greek; Hebrew; Biblical Archæology; Ecclesiastical History.

Other kindred studies may be embraced according to the time and capacity of the student.

The Patronizing Conferences direct the attention of young men, who are candidates for the Ministry, to this course in the following Preamble and Resolution :

WHEREAS, Dickinson College provides for a course of instruction in the elements of Moral and Biblical Science and Literature; and

WHEREAS, This course is adjusted to the wants of those young men who are preparing for the ministry, and who cannot take the full classical course. Therefore.

*Resolved*, That we advise those young men within our bounds who feel called to preach the Gospel, to avail themselves, as far as practicable, of the advantages of this course of instruction.

#### TEXT BOOKS.

TEXT,—Hebrew Bible, Hahn's (Leipsic Ed.); Greek Harmony of the Gospel, (Strong's); Greek Testament, (Robinson's Hahn's).

LEXICONS,—Hebrew, Robinson's Gesenius; Greek, Robinson's, or Liddell & Scotts (adapted).

**SCIENTIFIC COURSE.**

Young men who do not wish to study the classics, can take the complete course in English Literature, and Modern Languages, and practical Chemistry, and in pure and applied Mathematics, or such parts as their circumstances and time will allow. The class in analytical Chemistry this year numbers **FOURTEEN**, made up from members of the Junior and Senior classes.

**TEXT BOOKS.**

Fresenius' Qualitative Analysis; Bowman's Practical Chemistry; Wills's Analytical Tables; Dana's Mineralogy; Dana's Geology; Gray's Botany.

**RECITATIONS.**

At the daily recitations, where the text admits of it, the old catechetical method of instruction is avoided as much as possible, and the student required to give a connected view of the subject in his own language, and without the aid of the professor, except on points not fully treated by the author,—thus cultivating at once the powers of memory, thought and discourse.

When the subject is susceptible of it, a written analysis of the previous lesson is required at each recitation; and at the public examination, a written analysis of the whole work.

**BOOKS OF REFERENCE.**

The following are recommended as books of reference throughout the course:

Anthon's Classical Dictionary; Zumpt's Latin Grammar; Kuehner's Greek Grammar; Ramsborn's Latin Synonyms; Davies' & Peck's Mathematical Dictionary; Fowler's English Grammar; Webster's or Worcester's, Unabridged Dictionary; Worcester's Historical Atlas: Findlay's, or Butler's Classical Atlas; Story on the Constitution.

**EXAMINATIONS.**

2—Of the Senior Class, four weeks before Commencement, on the entire course.

3—Of the other Classes, the week before Commencement, on the studies of the session.

**TERMS AND VACATIONS.**

The College year is divided into two Sessions: the first beginning nine weeks from Commencement, and ending on the Wednesday preceding Christmas; the second beginning four weeks from the termination of the first, and ending at Commencement, on the last Thursday in June.

**SUMMER VACATION.**—From Commencement to the first Thursday of September, NINE WEEKS.

Students not resident in town are required to lodge in the College, and to furnish their own rooms. Furniture can be purchased in Carlisle at moderate prices.

No boarding department is kept by the College. Most of the Students now board in clubs or voluntary associations, carefully organized and managed by themselves, constituting families of from fifteen to twenty persons each. The expense varies from \$2 25 to \$4 00 a week. Others board at such private boarding houses in town as are approved of by the Faculty, in which the price of Board varies from \$4 00 to \$4 50. Washing is \$1 50 per month, or 37½ cents per dozen.

**SUMMARY OF ANNUAL EXPENSES.**

As the College tuition is now for the most part paid by Scholars, the necessary expenses of a student are much reduced. Parents and guardians are invited to examine the following estimates, as including everything that is strictly required:

A Society was organized several years since, having for its object to render aid to such young men as might need it in getting their education.

Ten per cent. of the Conference collections is now appropriated to this Fund, with the limitation that it be applied to the aid of those who are preparing for the ministry. Several Scholarships are on hand, the gift of benevolent individuals, for the same object.

## Law School.

A Law Department has recently been established by the Trustees, in connection with Dickinson College, under the direction of Hon. James H. Graham, President Judge of the ninth judicial district of Pennsylvania.

The term of study required for admission to the bar is two years. No examination, and no particular course of previous study is required for admission.

The sessions of the Law School correspond with the College sessions, but students may enter the Law Department at any time, and the term of study will date from their entry. Stu-

dents who have pursued their studies with a member of the bar, or law judge of Pennsylvania, for one year, will be admitted to the bar after one year's study in the Law School.

After the term of two years study, the last year being in the Law Department connected with the College, and passing a satisfactory examination by a committee of the Carlisle bar, students will be admitted to practice, and the degree of Bachelor of Laws conferred by the College on the certificate and recommendation of the Principal of the Law School.

A MOOT COURT will be held for the argument of causes previously assigned, and an opinion delivered by the Principal.

Recitations and examinations will be accompanied with occasional oral lectures and expositions on the subject of study. The fees are \$25 00 a term, or \$50 00 per annum, with an additional charge of \$25 00 per annum, or \$12 50 for six months, for admission to the MOOT COURT.

For admission to this department, the student must be at least ten years of age, and have some acquaintance with the elementary English branches. It will be well for students to be present at the opening of the session, as the regular classes are formed at that time; they will, however, be received at any time during the session.

### General Remarks.

---

The government of the Institution is mild and parental. It is designed to secure attention to study and correctness of deportment, not so much by the enforcement of rigid rules, as by cultivating in the student a taste for intellectual pursuits and virtuous habits. But while youthful indiscretion will be treated with lenity, incurable indolence, bad morals, and pecuniary ex-

travagance, will not be suffered to remain, to exert their corrupting influences.

A faithful record is kept of the standing and deportment of each student, and a report is sent monthly to his parent or guardian.

Text Books and Stationary are kept for sale at the College, at prices below the city prices.

---

### FINANCIAL AFFAIRS OF THE STUDENT.

As economy is indispensable to the welfare of both the College and the student, and all experience teaches that youth should not be allowed the uncontrolled use of money, attention is called to the following extracts from the Statutes of the College.— Though the faithful observance of these rules may not, in all cases, secure the economy desired, it will doubtless prove a salutary check upon temptations to extravagance and vice :

1. Every minor whose parent or guardian does not reside in Carlisle, shall select some member of the Faculty as his Patron, who shall have special oversight of his deportment, and whose duty it shall be to afford him such counsel as his circumstances require.

2. *All funds* for the use of a student shall be deposited with his patron : and no student shall be permitted to remain in the Institution, who shall obtain money from any other source, unless he immediately deliver it to his Patron.

3. The Patron shall ascertain at the beginning of each session what expenses each student is allowed to incur, and be strictly governed by such information in his disbursements.

4. No Student shall contract any bill without the permission of his Patron.
